## **K-12 Program Descriptions**

Supported through the Fund for the Arts  
**EVERY CHILD** Arts in Education Initiative

# drive educational success

Through the 5x5 and Teacher Arts Grants (TAG) programs, Fund for the Arts is working to provide arts-based educational experiences to every child in our community. The Fund for the Arts leverages the support of more than 20,000 donors to engage students, inspire excellence, and improve academic success.

## Did you know...?

**4x**

A student involved in the arts is 4x more likely to be recognized for academic achievement.

**2x**

Low income students who are highly engaged in the arts are 2x more likely to graduate from college than their peers with no arts education.

This brochure details the arts in education programs offered by our partner organizations to schools for the 2021-2022 school year.

- Each program offered is connected to core content and is led by professional teaching artists.
- Schools applying for grants through the 5x5 and TAG programs must partner with an arts group included in this brochure

## How to use this brochure:

- Use the At-A-Glance pages to search by discipline, academic content connections, or grade to find the program best suited for your classroom.

Please contact the arts groups to confirm pricing and experience details prior to submitting your requests. Contact information for participating arts groups can be found on the next page.
